Dear Harold,

A section of the Turner, Orinoco, Himalaya Book will appear in The Oct. "Playboy".

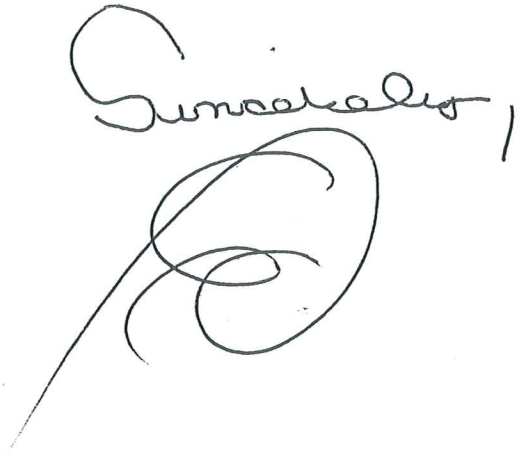
I've always had reservations about Turner. Only a psychotic - like J.G. - or a stupid person could accept - let alone advocate The Rich - Broadly - Barley Fantasy.

And Turner is not psychotic. Or stupid. Perhaps, he had J.G. misinformation for money or other reasons.

I cannot see an alternative ----.

Mae Brussell is putting out a Newsletter with Paul Krassner! With such friends ---- Like Joe McCarthy, Mae always has "documentation" and "facts" which

usually prove to be non-facts or misinterpretations at best.

Save us from what you call "Our Dedicated Wrong."


Sincerely,
